Year 6 English · Week 33 Worksheet

LIFE IN THE UNIVERSE AND FUTURE · planets and the Earth as a planet

Name: Class: 6/ No: Date:

Ⓐ Which one is it? Write the word. /8

Words: Sun Moon Earth Mars Jupiter Saturn Uranus Neptune

1 

2 

3 

4 

5 

6 

7 

8 

B Match the planet with its description. Write the letter. /6

1. Mercury	A. the biggest planet
2. Venus	B. the planet closest to the Sun
3. Earth	C. the planet we live on
4. Mars	D. the planet with beautiful rings
5. Jupiter	E. the Red Planet
6. Saturn	F. very bright in the sky

Ⓒ Circle the correct word. /8

1. The Earth (goes / go) round the Sun.
2. The Moon (goes / go) round the Earth.
3. There (is / are) eight planets.
4. The Sun (is / are) a star.
5. Mercury is (close / far) to the Sun.
6. Neptune is (close / far) from the Sun.
7. Jupiter is the (biggest / bigger) planet.
8. We (live / lives) on the Earth.

Ⓓ Complete with a word from the box. /6

Words: Sun Moon Jupiter Saturn Mars Earth

1. The _____ gives us light and heat.
2. The _____ goes round the Earth.
3. _____ is the biggest planet.
4. _____ has beautiful rings.
5. _____ is called the Red Planet.
6. We live on the planet _____ .

Ⓔ Write sentences. /6

Example: Mars / the Red Planet → Mars is the Red Planet.

1. the Earth / go round / the Sun →

2. the Moon / go round / the Earth →

3. Jupiter / the biggest planet →

4. Saturn / have / rings →

5. Mercury / close / the Sun →

6. there / eight planets →

Ⓕ My favourite planet. Write 4 sentences. /8

Use: My favourite planet is … · It is … (big / small / bright) · It is … from the Sun. · I like it because …

★ **Fast finishers:** Draw the solar system and label the planets in order.

Ⓖ Circle the correct word. /6

1. Jupiter is (larger / largest) than Earth.
2. Jupiter is the (largest / larger) planet.
3. Mercury is (closer / closest) to the Sun than Earth.
4. Neptune is the (farthest / farther) planet.
5. The Sun is (brighter / brightest) than the Moon.
6. Earth is (smaller / smallest) than Jupiter.

Ⓗ Write the comparative or the superlative. /6

1. (large) Jupiter is _____ than Mars.
2. (large) Jupiter is the _____ planet.
3. (close) Venus is _____ to the Sun than Earth.
4. (far) Neptune is the _____ planet.
5. (bright) The Sun is _____ than the Moon.
6. (small) Mercury is the _____ planet.

Ⓘ Match the word with its meaning. Write the letter. /6

1. atmosphere _____	A. plants, animals and the environment
2. orbit _____	B. the solid part of the Earth
3. land _____	C. giving a lot of light
4. light _____	D. the layer of gases round a planet
5. nature _____	E. the path of a planet round the Sun
6. bright _____	F. it comes from the Sun

Ⓙ Read and answer. /5

The Earth is a planet in our solar system. It goes round the Sun in an orbit, and the Moon goes round the Earth. The Earth is special because it has an atmosphere, light from the Sun, land, water and nature. People, animals and plants live here. Jupiter is much larger than the Earth, but nobody lives there.

1. What is the Earth? _____
2. What does the Earth go round? _____
3. What goes round the Earth? _____
4. Why is the Earth special? _____
5. Is Jupiter larger than the Earth? _____

Ⓚ Compare two planets. Write 4 sentences. /8

Use: … is larger / smaller than … · … is closer to the Sun than … · … is the largest / brightest … · I think …

★ **Fast finishers:** Write 5 true facts about the Moon.

Ⓛ Read the text and answer. /6

Mars is called the Red Planet because of its red dust. It is smaller than the Earth and it is farther from the Sun. Mars has a thin atmosphere, and its days are cold. Scientists are going to study Mars and they are going to send more robots there. Is there life on Mars? Nobody knows yet.

1. What is Mars called? _____
2. Why is it called that? _____
3. Is Mars smaller than the Earth? _____
4. Is it closer to the Sun than the Earth? _____
5. What are scientists going to do? _____
6. Is there life on Mars? _____

Ⓜ Circle the correct word. /6

1. The Earth (goes / is going) round the Sun.
2. Scientists (are going to / go to) study Mars.
3. Mars (is / are) smaller than the Earth.
4. Mars is (farther / farthest) from the Sun than the Earth.
5. We (are going to / goes to) study the planets.
6. Jupiter (is / are) larger.

Ⓝ Put the words in order. Write the sentence. /5

Example: smaller / Mercury / is / the Earth / than → Mercury is smaller than the Earth.

1. larger / than / is / Jupiter / Mars →

2. round / goes / the Sun / The Earth →

3. is going to / Scientists / study / Mars →

4. has / Mars / a thin atmosphere →

5. the Red Planet / is / Mars →

Ⓞ A planet fact file. Write 5 sentences. /10

Use: … is a planet. · It is … than the Earth. · It is … from the Sun. · It has got … · Scientists are going to …

★ **Fast finishers:** Write a quiz with five questions about the planets.

How did I do? 😀 Easy 🙂 OK 😕 Difficult Total: ____ / 100
